Announcing GPS Monitoring Solutions A New Leading-Edge Global Positioning System Company

*Offering Cost-Effective Solutions for California Law Practices,
Bond and Governmental Agencies, and the General Public*

ORANGE, CA – GPS Monitoring Solutions is the first company in California certified in both hardware and software usage for House Arrest, Alcohol Monitoring, Pre-Trial Sentencing, and Alternative Sentencing. Their innovative programs can assist both attorneys and their clients by providing alternate ways to better prepare for trial, minimize or eliminate incarceration while awaiting trial, potentially earn time-served credit for the time monitored, attest to an individual's whereabouts, as well as attest to alcohol and drug results.

The experts at GPS Monitoring Solutions are primarily focused on assisting attorneys and their clients with their specific needs tailored to meet their objectives. The benefits of their technologically advanced GPS tracking systems are cost-effective, easy to use, and dependable making their programs the best in the market.

“We know that many attorneys, and individuals are searching for ways to keep people safe or out of jail”, said Petra Fuhriman, Certified Associate and Co-Owner. “Our services offer courts a solution to sentence low-risk offenders to house arrest which simultaneously reduces jail overcrowding. Plus, during these tough economic times it makes sense to use our services in lieu of bail. We have successfully helped many families, attorneys and district attorneys keep clients out of jail, and that’s our goal.”

GPS Monitoring Solution’s case management staff works directly with agencies to augment their staff to provide services for both juvenile and adult offenders, easing their case loads and allowing time to focus on high risk offers. It also helps fight against false accusations, or redemption for some wrong decisions.

“Finally, a company that offers solutions for law practices, bond and governmental agencies and individuals who have searched for answers to their problems through the Global Positioning Systems (GPS) and related technologies”, said Lawrence Wong, Co-wner. “GPS Monitoring Solutions offers unparalleled service, depth of experience and the very latest products available in a dynamic, ever-changing and innovative industry.”

GPS Monitoring Solutions has locations in Orange County, Los Angeles County, San Diego County, and the Inland Empire, call toll free 877.285.4238.
