

ReliaTrack - SecureCuff

Unlike normal straps, SecureCuff provides officers valuable time to respond and locate offenders who are trying to abscond

- Specifically designed for High-Risk Offenders
- Encased, hardened stainless-steel bands (extremely cut-resistant)
- Embedded fiber-optic strand (tamper alarm immediately generated when compromised)
- Installed utilizing security screws that require specialty torque driver/bit (provided at install)

- On-board two/three-way voice communication
- Unique “Watch Dog” monitoring service
- RF Beacon option for home detention awareness

SecureCuff is the most effective solution for High-Risk Offenders

*Recently, a judge attempted to breach the SecureCuff, while installed on an ankle, with 4-ft. bolt cutters...
...and was unsuccessful.*
